## About Me

Cyber Security undergraduate with strong skills in coding (C, Java, R) and experience in web development, Arduino robotics, and cybersecurity. Known for adaptability, a strong work ethic, and a quick ability to master new technologies. Eager to contribute to challenging projects and grow within the tech industry.

## Education

- Bachelor of IT (Major in Cyber Security)**  
Victoria University Presnet
- Advance Level - Commerce**  
Royal College Colombo 7 2019-2021
- Ordinary Level**  
Royal College Colombo 7 Completed on 2018

## Skills

- Cyber Security** (Ethical Hacking, Windows Server, Digital Forensics)
- Programming Languages:** C, Java, R
- Kali Linux** (Familiar with tools like Nmap, Metasploit, Wireshark, Burp Suite)
- Web Development** (HTML/CSS, Responsive Design)
- Arduino Robotics & IoT Integration** (Apple Homekit, Alexa)
- Adobe Photoshop & Adobe Premiere Pro**
- Problem Solving & Critical Thinking**

## Projects

- Smart Roller Gate** Voice Control + Apple Homekit with SIRI (Arduino)
- Smart Room** Conversion with Arduino for Apple HomeKit and Alexa Integration
- University Project :** Hotel Booking Website - Travelmania
- University Project :** Gateway Dynamics
